We hope to roll out the new Automated Dispatch System in November. We will run the new system parallel to our existing system and try to iron out any problems that may arise, before going "live" in the New Year.

The new website is nearly complete and should be online before Christmas.

Training is starting to ramp-up. Please check the existing website for details. To register for any of the courses please call Lisa at extension 2166

Fraternally yours,

Bob Hugh
