AUTOMATED DISPATCH SYSTEM

- A member's updated information is very important, as this will be crucial, if a member is eligible for dispatch where a job has certain requirements. Information updates can be made to Lisa Wilson (Training Administrator) online lwilson@millwrights1460.com or by telephone 780-430-1460 ext.2166.
- We are entering all members current Training Certificates (that we have on file) into the system, also all members Craft classification's (Journeyman and Apprentice Millwright's, Welder's and Machinist's).
- A member's profile page will be the first phase of the system being implemented. Access to this page will be through the website (www.albertamillwrights.com) by clicking on the Dispatch icon. Check website as to when this will be activated.
